kms from EPIP Zone / ITP-B and a stone's throw from the proposed Doddenakundi metro station, connectivity is only going to get better. Though the project is located right on the main road, it has been designed away from the Main Road that insulates it from the hustle and

bustle of the main road.

The project offers a homes of area from 1398 sqft to 2021sqft and offers 2.5BHK, 3BHK and 3.5 BHK configurations. The biggest USP of the project is its location advantage. It is in close proximity to the established IT parks, and leading schools, hospitals, malls and upcoming metro line. The property promises a truly luxurious experience with uncompromised living and comfort.

Spread over 4.5 acres the project features world class amenities with world class homes. The project features swanky 15,000 sqft 'Sky Clubhouse' on the top floor.

Other floodlit outdoor amenities at the project include:

-
- A basketball court
- A tennis court

- Golf putting **green**
- Two badminton courts
- An amphitheater
- Children’s play area
- Walking & Cycling trails
- Swimming pool with toddler’s pool.

Commenting on the launch of the project, **Mr. Shivaram Kumar Malakala, Co-Founder and Joint Managing Director**, Habitat said “Habitat Eden Heights has been conceptualized and designed keeping in perspective the current aspirations of home buyers in Whitefield, the premium tech-hub, who are global travelled and current with their lifestyle aspirations..”.

Speaking about the project **design**, **Mr. Bhaskar T Nagendrappa, Co-Founder and Joint Managing Director**, Habitat said “The Project is designed to ensure optimum usable space, adequate natural light and as per Vaastu. The project uses Tata Steel, ‘Porotherm’ bricks and other high quality materials to ensure a state of the art home, which is also sustainable.”
